Sturt Highway
Upgrade Stages 1—5
21.5km of Roadway between Gawler and Nuriootpa

Client
Department for Planning, Transport & Infrastructure

Location
Gawler to Nuriootpa

Contract Value
$95 million

Completion Date
June 2010

Project Description
- Comprises of 5 stages of works incorporating the duplication of 21.5km of roadway between Gawler and Nuriootpa, a truck rest area and on/off ramp upgrades to Greenock, Seppeltsfield and Nuriootpa.
- Included the placement of over 400,000m³ of earthworks and 270,000t of asphalt.
- Blasting of 18,000m³ of rock including pre split of batter to allow for development of on/off ramps.
- Incorporated three bridges and one steel arch culvert over Greenock Creek.
- Considerable design changes implemented throughout all stages without additional cost to the client or delays to the completion.
- Constructed on a major highway under difficult traffic control conditions.
